

Automatic wall mounted soap dispenser RONDEO

Description

Wall mounted electronic RONDEO soap dispenser for non-proprietary soap.

Touch-free, delivers a soap dose simply by approaching the hand and protects the users against cross contamination. With the peristaltic pump, there is no direct contact between the pump mechanism and the soap, preventing contamination and backflow.

Cost effective solution, drastically reduces soap costs, dispenses the exact amount of soap needed for a perfect hand washing. Easy to install and to refill.

Combined with RONDEO touch free electronic faucet, it creates a germ free and automated environment for heavy traffic locations.

RONDEO water and soap

Soap bottle installation behind the wall, under the wash basin or behind the mirror.
